THE ENIGMA

JUNE 2022 • THE NATIONAL PUZZLERS' LEAGUE • EST. 1883 • SPECIAL EDITION

GOLDEN SPHINX BITS

From the Golden Sphinx Committee

/dev/joe, Btnirn, LeXman, Sue++, and ♀

We are delighted to bring you this year's supplemental issue of *The Enigma*, containing the nominees for the 2021 Golden Sphinx awards. If you didn't solve them the first time around, now's your chance. (Solutions are included, on pages 34 through 39.)

There is a dedicated team behind each month's *Enigma*, but the most important role is that of the constructors: the people who find the time to produce puzzles and then share them with us all. Solvers have long acknowledged their favorite puzzles by giving them "kudos", tabulated in the monthly reports. In 2015, we began the tradition of an annual awards ceremony at Con: The Golden Sphinx Awards. Our former Editor Teki set the tone for the "black tie" event, and, after the past two years (one online, one with reduced attendance), we're hoping to get back to that feeling this year in Nashville.

A word about methodology: the committee began with the kudos counts, but statistics vary month to month, so we wanted to give you all the chance to weigh in again. And, of course, we wanted to showcase the nominees one more time in this special issue. **Please vote!** You will decide the winners, who (along with the Editor's special commendation) will be announced on Saturday night at Con.

Thank you to those who made this possible: Dart created a beautiful design for the pins given to the award recipients. yodaughter brings efficiency and enthusiasm to the layout of this issue, as she does every month in *The Enigma*. And Qoz sets up and maintains the online voting system. Thank you all. And most of all, thank you again to the many, many contributors who make *The Enigma* happen month after month.

From the Compositor

Puzzle types are presented in the same order as in *The Enigma*. The puzzles themselves are laid out so as to fit the space and do not reflect any particular ranking. In each regular issue, cryptograms are on the back page, numbered 1 through 7 by estimated difficulty, and they are presented in that way here.

VOTING INSTRUCTIONS

Each member can vote for their one favorite puzzle in each category; it's possible to abstain from one or more categories if desired. Please vote online at <https://krewe.puzzlers.org/sphinxes>.

If you don't want to vote online, please write a list of each nominee you are voting for and its category (limit one vote per category; abstentions are possible). Send the list to Sue++ (Susan Glass, 12 Shady Ln, Framingham MA 01701). Please be sure to include your nom so that we can verify the vote.

The deadline for voting by either method is June 30, 2022, midnight Pacific time; for mail-in votes this means the ballot must be postmarked by then.

NOMINEES

Solution words and phrases not found in 11C (11th Collegiate) are labeled by the Merriam-Webster dictionary in which they appear: NI3 (in print), online MW (www.merriam-webster.com), or NI2. Non-MW words and usages are noted. "+" signifies foreign, slang, dialect, obsolete, archaic, and the like. Capitalized words get a "+"; words in all-caps get "+*". Words that are capitalized (as in names or titles) but normally uncanceled with the same usage get a "+" or "+*". Puzzles with a puzzle note get a "+".

Enumeration for MW phrases is [bracketed] in anagrams and flat types where non-MW phrases are allowed, to wit: spoonergrams, mutations, palindromes, rebuses, heteronyms and homonyms, welded flats, variations on these types, and flats labeled "freewheeling".

The website for voting is available from 1-30 June 2022, or mail your list to Sue++, Susan Glass, 12 Shady Ln, Framingham MA 01701. All mailed votes must be postmarked by 30 June 2022.

AUG X-1. WELCOME BACK! BY BTNIRN, PRINCETON NJ

Welcome back! It was so great to see everyone after our long seclusion. Here's a puzzle to celebrate:

1. Twelve clues are normal, but the answers are ready to begin the next stage of their lives: one letter must be changed before entry. One modified word is not MW.
2. Twelve clues are done social distancing: they've invited in an extra word, which must be removed before solving. These extra words define the modified entries from (1).
3. The remaining clues are coming out of their shells: the wordplay yields an extra letter.

The original letters (top-to-bottom) and the altered letters (left-to-right) from (1) describe us all; the letters from (3) (in clue order) yield a song about one of our past summer gatherings. Please submit these two descriptions and the song title with your solution grid.

JUL X-1. WATCH WHAT YOU'RE DOING BY WHEELS, DUNNVILLE ON

Yes, please be careful:

Several clues contain an extra word that must be removed before solving. Half of these extra words appear as the first or last word in the clue. These words describe how the unclued entries are connected. The remaining extra words are definitions for the unclued entries.

The remaining clues have an extra letter which must be removed before solving (always leaving a legitimate word after the removal). These letters, read in clue order, are good advice to solvers.

Aug E-1. FILM RESTORATION BY MR E

Fifteen old films need to be restored. They are English language films from 1939 through 1987. All were nominated for at least one Academy Award, and all but four received at least one.

Each title is 10 or 15 letters. These titles have broken into 5-letter pieces (some words, some not), and then one letter in each piece has changed. The resulting pieces, all words, are listed below in three columns. Each 10-letter title uses one entry from the first and second columns, in that order, and each 15-letter title uses one entry from each column, in order.

Your task is to restore the original titles. If you are submitting solutions, please list the answers in alphabetical order.

BACKS	ANODE	EASES
BRING	DUNCE	LITER
CLASH	FOLLY	OSAGE
CELLO	GNOME	UNDER
COMIC	OLIVE	UTURN
CROCK	OTHER	
MANTA	RICER	
MOODS	RILED	
NONET	ROACH	
PILLS	ROUND

STALE	THEME	
STANK	TRICK	
TAXED	TOOTH	

Oct E-4. URBAN RENEWAL BY NEXT LINGO †

Eleven of the 100 most populous cities in the US are in need of some reconstruction.

Each city name has been split into two 5-letter groups, some words, some not. One letter in each piece was changed. The resulting pieces, all 11C entries, are given below. Each name uses one entry from each column, in order.

For example, if St. Lawrence (South Dakota) met the population criterion, it would break into STLAW and RENCE and might appear in the first column as STRAW and the second as PENCE. Each column is sorted alphabetically.

Your job is to repair our broken cities and find all eleven names. If you submit solutions, please alphabetize the names.

FEB X-1. WHAT THE DICKENS BY ANTZ, VANCOUVER BC †

Eight thematic clues are wordplay-only, and their wordplay omits part of the answer. These answers could all be defined by the same word. The omitted part of the answer should be entered as a common symbol (the same one in all of them), which represents the missing part phonetically (though the set of *letters* represented may differ among the entries, and some pronunciations don't exactly match 11C.) Enter this same symbol in the central square.

When all answers have been entered correctly, a five-word alternative title for the puzzle will appear; this must be submitted as part of the solution.

JAN X-1. THE SIX — BY FRAZ, TORONTO ON

Toronto's pre-eminent rapper Drake has nicknamed his city The Six, and in the spirit of Toronto, the grid entries in this puzzle are all six-letter words. Each clue pair yields two answers that intersect in the correspondingly numbered square of the diagram, and either the Across clue or the Down clue may be listed first. Most of you aren't from The Six, so none of the clue answers is six letters long. Half of the Acrosses and half of the Downs are one letter too short, so you'll need to add a letter to create the diagram entry. The other half of the Acrosses and Downs are one letter too long, so you'll need to drop a letter from each before entering them.
